

\$ whoami

My career interests are in creating and improving **Open Source solutions** to common problems, **presenting talks** on interesting topics, and **automating** the boring stuff with *security* and *efficiency* in mind. I love talking about:

Server-side Dev: Linux (Debian, Ubuntu, RedHat, Fedora, Amazon), Python, Django, Golang, Rust, Ruby, NodeJS
DevOps: Kubernetes, Terraform, Chef, Ansible, Docker, AWS, Azure, GCP, Digital Ocean, Git & GitHub
Open Source: Publish general purpose tools, improve existing code-bases, document upstream projects.
Leadership: Linux Users Group president, taught DevOps BootCamp, SCALE conference speaker.
